Monthly and weekly plans: every scenario, with links

Close flow, Plan and billing, Change plan, dashboard, editor, mobile and emails. Every screen is built on an existing proto. Change plan opens the Manage your plan screen: plans on the left, one-click payment on the right.

1 Nov 2026 · v3 of the 30 Oct list · 52 new and 9 updated links

New **Monthly plans.** Pro monthly and Gold monthly change in place: starts today, unused credits carry over.

New **Weekly is separate.** No Change plan. The user buys a new plan at full price, and the weekly plan runs out without renewing.

New **Change plan.** Every path through the Manage your plan screen, including team plans.

Updated **No 7-day trial.** The trial states and steps are gone. The 20% cancel offer is yearly only.

New **Dashboard, editor, mobile, emails.** Failed payments, weekly ending, App Store weekly, the yearly nudge, export and close flow for paid plans.

To decide **17 decisions,** on the last page. Two are pricing problems: monthly gives more credits than yearly, and weekly is cheaper per credit than yearly.

New new scenario Updated changed since 30 Oct No tag: same as before

Emails New

Copy only. There is no email design in the repo to build on.

Plan changed
Subject: You’re on Gold yearly. We added 50,000 credits to Scaling Operations, plus the 620 you hadn’t used. You paid $1,200 today and your plan renews on Oct 30, 2027. View invoice.

New plan bought from weekly
Subject: You’re on Pro monthly. Your weekly plan won’t renew and runs to Nov 3. App Store variant: Your weekly plan is billed by the App Store. Cancel it there so you’re not charged for both.

Receipt, monthly or weekly
Subject: Your Pro monthly receipt. We received $25. 1,000 credits are in your workspace and unused credits carry over. Next payment Nov 29.

Payment failed (day 0, 3 and 6)
Subject: We couldn’t renew Pro monthly. Your card ending 4242 was declined. Update it by Nov 6 to keep Pro. Your decks stay saved either way.

Moved to Free after the grace period
Subject: Your workspace is on Free now. We couldn’t take payment, so Pro features are off. Your decks are saved. Update your card to get Pro back.

Weekly plan ended
Subject: Your Pro weekly plan has ended. Your decks are saved. Pick a monthly or yearly plan to keep Pro features.

Still to decide To decide

Product decisions. The protos use the default noted in each.

Monthly gives more credits than yearly
Pro monthly is 1,000 a month (12,000 a year) against 5,000 on Pro yearly; Gold monthly is 60,000 a year against 50,000. So "save $60 a year" also means 7,000 fewer credits. The monthly credit numbers (from the app fallbacks) need fixing, or yearly needs more credits.

Weekly is cheaper per credit than yearly
Weekly is about $0.030 a credit, yearly $0.048. The mobile paywall no longer claims a saving on yearly. Raise the weekly price, or keep it as is on purpose.

No proration on monthly
Full price for the new plan, unused credits carry over, unused days are lost. The app (Chargebee) shows a "Pro rate" credit today. Pick one.

Weekly credits after the week ends
Keep them or drop them when the weekly plan runs out? The protos keep them during the week and show Free credits after.

Credit packs for weekly users
Zero credits offers a pack to weekly users. Sell packs on weekly, or only point to monthly?

Pack checkout for paid users
The pack checkout keeps the card form from zero-credits.html. Paid users have a card on file, so it could be one-click like Manage your plan.

Downgrades
Gold to Pro, yearly to monthly, team to individual are not offered. Today: cancel renewal, then buy the smaller plan after the end date.

Seats on monthly and weekly
Individual plans are one seat. Inviting a teammate should point to Pro Team or Gold Team. Confirm.

Renew early
manage-plan lets yearly users renew early by picking the current plan. v2 shows the current plan without a radio. Keep renew early for yearly?

20% renewal discount plus an upgrade
Does the discount carry to the new plan?

GETGOLD coupon
The app applies it when Pro moves to Gold. Does Pro monthly to Gold get it?

Team: buy more credits, Pro Team to Gold Team
pricing-rules.md allows both; the Team billing page has no button.

Expired monthly or weekly
Renew now gives returning subscribers 20% off. Same for monthly and weekly?

Refunds
Window and rule, for example a weekly user who buys yearly by mistake.

Seven Day Pass or weekly in the close flow
The pass step stays for now. Should it sell the weekly plan instead?

Public pricing page
Does it show monthly and weekly, and mark the current plan for a logged-in user? No v2 built yet.

PDF export and team plans on mobile
The export modal has no PDF entry, and there is no mobile team screen. Both need a base screen first.
